### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The subject matter not found was a balloon angioplasty catheter that includes a balloon with an inflatable envelope portion and a tubular member that is made up of a metallic ribbon coil support, which defines a perfusion lumen that decreases in cross section as the perfusion lumen moves distally inside the envelope portion of the balloon, therefore the tubular member and the metallic ribbon coil also decrease in cross section distally (see figure 28, 35). The examiner interprets perfusion to mean the delivery of blood to a capillary bed in the biological tissue (as defined by wikipedia at "[en.wikipedia.org/wiki/Perfusion](http://en.wikipedia.org/wiki/Perfusion)").

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew F. DeSanto whose telephone number is 571-272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick LUCCHESI can be reached on (571) 272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
